BEST COUGH MEDICINE,
PISO'S CURE
FOR
CONSUMPTION.
It has permanently cured THOUSANDS of cases pronounced by doctors hopeless. If you have premonitory symptoms, such as Cough, Difficulty of Breathing, &c., don't delay, but use PISO'S CURE FOR CONSUMPTION immediately. By Druggists. 25 cents.

MISCELLANEOUS.

NOTHING LIKE IT

Its peculiar efficacy is due as much to the process and skill in compounding as to the ingredients themselves. Take it in time. It checks diseases in the outset, or if they be advanced will prove a potent cure.

No Home should be Without It.

It takes the place of a doctor and costly prescriptions. All who lead sedentary lives will find it the best preventive of and cure for **Indigestion, Constipation, Headache, Biliousness, Piles** and **Mental Depression.** No loss of time, no interference with business while taking. For children it is most innocent and harmless. No danger from exposure after taking. **Cures Colic, Diarrhea, Bowel Complaints, Feverishness and Feverish Colds.** Invalids and delicate persons will find it the mildest Aperient and Tonic they can use. A little taken at night insures refreshing sleep and a natural evacuation of the bowels. A little taken in the morning sharpens the appetite, cleanses the stomach and sweetens the breath.

FOR WHOSE BENEFIT

A PHYSICIAN'S OPINION.

"I have been practicing medicine for twenty years and have never been able to put up a vegetable compound that would, like Simmons Liver Regulator, promptly and effectively move the Liver to action, and at the same time aid (instead of weakening) the digestive and assimilative powers of the system."
L. M. HINTON, M.D., Washington, Ark.

PIANOS.
GAINED FIRST PREMIUM FOR GREATEST merit at the New Orleans Cotton Centennial and WORLD'S Exposition for refined and wonderful power of tone, elegance of design, and superb finish. Only piano endorsed by United States commissioners, from each of the States. Cases finest carved, rosewood finish finest imported double repeating action—three strings throughout—best patent steel wire—keys best ivory. Our new patent steel tuning device, instead of wood, is the greatest invention ever made in pianos. It consists of stationary STEEL tuning pins that are set in a mold and molten STEEL is run round the pins keeping them solidly in place. A thimble or shell pin is made to exactly fit the stationary pin revolving therein; thus the strings wind round the pins. After the strings are properly stretched the piano can never get out of tune, the rest plank being of STEEL not affected by extremes of climate. This will be appreciated by all musicians in city or country. It will stand twenty years without tuning and is good for 100. No other piano has this improvement.
Great strength and durability is another advantage. In other pianos holes are bored in wooden boards and tuning pins inserted. The pins turn round in this board and cannot stand permanently in tune, and it often cracks, splits, dries out, becoming utterly, totally and entirely worthless as a musical instrument. Our STEEL tuning device is in no way affected by such casualities, and the sounding board is so constructed that our pianos can never become thin or metallic in tone. They are always in tune and the expense of tunning is saved. This patent alone is worth millions and makes our piano the greatest in the world. Prices are no higher than other pianos. Buying direct from us, the largest manufacturers, you save $100 or $200—dealers' profits. Don't mind the ominous growlings of dealers and agents, who see their chances of selling a poor piano at a big profit of $200—slipping away—pity them.
We guarantee our pianos ten years. 200 styles. We have put our prices at lowest bed-rock for Cash.
A $600 Piano for $259.50; a $900 Piano for $297.50; a $1200 Piano for $375.50; a $1500 Piano for $475.50.
Upright Cabinet Grands, with steel and rubber cover shipped on board cars at S. F., to any part of the United States, Canada or Mexico. Our terms are cash with order. If not as represented money returned. We occasionally have good second-hand pianos, made over at $100 to $300, which we take in part payment for our own. Write or call for catalogue, free.

A MISERABLE OUTING.

Sad Experience of Two Boys Who Were Left Naked on Arsenal Island.

Assistant Prosecuting Attorney Dierkes issued a warrant charging Edward Bradley with petit larceny. In itself the case is one of but little importance, the defendant, Bradley, being charged with stealing a string of fish and two suits of clothing from Harry Sylvester and George Minke. Behind the warrant, however, there is an interesting little story.

All of the parties concerned live in Carondelet. Harry Sylvester and Geo. Minke are 15-year-old boys whose homes are at 5,523 Virginia avenue and 126 Ellwood street respectively. Recently the two decided to go fishing across the river and went to Mrs. Bradley, who lives on the shore, to hire her skiff. Mrs. Bradley readily let them have the boat, for the loan of which they paid her ten cents. With their lunch and fishing tackle in the bottom of the boat they pulled across the river to Arsenal Island, and spent the day angling for buffalo and cat. By evening they had secured a goodly string. After stowing away the catch under one of the seats in the skiff the youngsters hauled of their clothes, tumbled the garments in a heap on the bank and ran around a bend in the island to a deep hole to swim.

About 6 o'clock in the evening Edward Bradley, the 23-year-old son of the lady from whom the boys had hired the skiff, returned home from work and finding the boat gone set out in search of the missing property. Not finding it along the bank he borrowed a boat from a neighbor and rowed across to the island. There, drawn up on the bank, was his skiff. Bradley supposed, of course, some mischievous boys had purloined the boat, and thinking to repay them in their own coin he took boat, clothing and fish and pulled back to the Missouri shore.

Their bath finished Sylvester and Minke returned to don their garments preparatory to returning home. To their dismay they found everything gone. Stark naked as they were, they did not fear the exposure to the cool night breeze, and concluding that they would have to make a night of it they went into the water for another swim. It was quite dark when they emerged, and they seated themselves on the shore to tell stories. They were not left long undisturbed. The festive mosquito and the bloodthirsty gallinipper were out in force, and the unfortunate young castaways were soon in agony. For a while they ran about in the brush in order to drive the insects away, but found their torment increased by the scratching of the shrubs. Then they took to the river and stood for an hour up to their necks in the water. Soon, however, their knees weakened under the strain and out they came. Immediately they were scratching and clawing like all possessed.

At last a happy thought struck Sylvester. Hunting a patch of soft sand he dug with his hands a hurriedly improvised grave and rolled into its depths. Then as best he was able he pulled the accumulated sand over his smarting flesh. Minke followed his example, and both were soon "out of sight."

Then together they lifted up their voices, and a wild, mournful wail went far over the waters on the bosom of the cooling breeze. Time and again they shouted for assistance, and the deep chested bullfrogs in the adjacent swamp joined in the chorus with the utmost glee. Finally Officer Eckert, of Carondelet, heard the sounds, and securing a boat he rowed to the island. Half an hour later they were telling their story on Missouri soil. After getting them into some clothes Officer Eckert sent the lads away to their homes. Then he went to young Bradley, who refused to give up the garments he had taken. The warrant for petit larceny was accordingly issued.—St. Louis Post-Dispatch.

Looking for Brains.

Burt G. Wilder, professor of physiology, comparative anatomy and zoology in Cornell university, not satisfied with collecting over 4,000 specimens of entire animals, preserved in alcohol, has now decided to give his attention to a careful study of the human brain by means of actual observation, examination and experimentation. For this purpose he has secured the brains of several hundred persons who died recently. Among these are the brains of philosophers, artists, business men, even murderers. Dr. Wilder has discovered some curious facts from his study regarding a man's accountability for his crimes.

By a peculiar process Dr. Wilder hardens the brain before it is taken from the body. Dr. Wilder is anxious to get the brains of some professors, and is on a still hunt for bequests of this kind. One prominent college president has already presented his brains to Professor Wilder on his decease, and several professors of leading educational institutions have left him their bodies as well as their brains. Dr. Wilder, among other things, shows that insanity in many cases springs from lack of cerebral nutriment consequent on a poor blood circulation.—New Orleans Picayune.

Quite Appropriate.

Small Jessie—Uncle Dick, I've got such a big pain.

Uncle Dick—Where, little girl?

S. J.—In my—under my sash.

U. D. (soothingly)—Never mind, dear. Panes always go with a sash, you know.—Pittsburg Bulletin.

LIGHTNING ANALYZED.

Misconception of the General Idea Proved by Photographs.

As to the term "forked lightning" the representations given of it by artists, which resemble the so called thunderbolts placed in the hand of Jupiter, are quite absurd. The flash when photographed exhibits itself as a line which is continually changing its course, and is described as "decidedly crooked" by a very careful observer. It never proceeds for a time in a straight line, and then turning at a sharp angle going on further in an equally straight line, as is represented in pictures. The forking of it is very marked, and this occurs by side flashes passing off from the main track, and eventually losing themselves, like the ramifications of tree roots. Occasionally the lightning appears to start from a point from which several flashes diverge in different directions.

Whenever a flash passes from cloud to cloud or from cloud to earth the light produced by it illuminates the sky in the neighborhood, and the more intense the flash the more brilliant and extensive the illumination. At times sheet lightning has been proved to emanate from an ordinary storm distant more than a hundred miles from the point of observation. It is, however, maintained, and apparently with good reason, that occasionally lightning of the "sheet" type, such as what is called "summer light night," takes place without any thunder; so that, in such cases, no actual thunder storm is in progress.

Globular lightning is a rare phenomenon, and one that no one has yet been able to produce in the laboratory, whereas the phenomena of the two previous types are easily produced. The general description of the occurrence is that a luminous ball is seen moving very slowly, not touching any object, and eventually breaking up with a violent explosion and the appearance of flashes of ordinary lightning. It is reported that persons have gone out from a house into a street to follow such a ball and watch its movements, so that the occurrence must have lasted at least a number of seconds.

Ordinary lightning, as is well known, is practically instantaneous. The size of the ball on different occasions has varied from that of an orange to that of a large glass lamp globe or even larger. Many physicists refuse to believe any accounts of this manifestation of the electrical discharge, but the reports of it are too numerous and circumstantial for us to consider them to be entirely baseless.—Longman's Magazine.

Learn to Swim.

There is no need to descant upon the manifold attractions and uses of swimming. All proper precautions for safety should be taken, but your boy should learn to swim. Never let him go into the water unless he is well; neither let him go alone nor with flighty boys only, even when he has mastered the art of natation—cramps and accidents of all sorts are too common for that. Keep him away from rapids and whirlpools, and impress upon him at every opportunity by anecdote, precept and example the necessity of exercising prudence in the matter. Especially see that he is familiar with remedies for cramps and with the modes of reviving the drowned. Many a life has been lost because a boy's companions did not understand how to use proper restoratives when his body was first recovered from the water.—Harper's Bazar.

Japanese Salutations.

While waiting for a train at Yokohama station not many years ago, a tourist observed a Japanese gentleman, faultlessly attired in European dress, approach a Japanese lady (also dressed after the manner of civilized nations) and lift his hat with a pretty bow made in the orthodox western style. Thereupon Mme. Chrysanthème, looking a trifle embarrassed, essayed to return the compliment by lifting her bonnet. Finding, however, that this troublesome headpiece declined to yield, the poor little lady tugged at it hard with both hands, but as all her exertions were unavailing she ultimately slid her hands down the front of her dress and inclined her body after the manner of uncivilized Japanese when they meet each other in the street naturally clothed.—San Francisco Argonaut.

Clinometer or Plumb Level.

A new plumb level has been put upon the market which appears to be a most handy and valuable little instrument. It is a thoroughly practical device for leveling, plumbing and striking angles, elevations and grades, and, while being exceedingly simple, is admirably accurate. It is described as being especially adapted to the use of carpenters, machinists, stationary, civil and mining engineers and bridge builders, as well as for the ditching and draining of farm lands, landscape gardening, etc. This device should be very acceptable to track layers and roadmasters, as by its use grades and curves can be tested without the assistance of a civil engineer, and it is claimed that it is much more reliable than the spirit level.—New York Commercial Advertiser.

An Exceptional Case.

Jinks—I understand that the noted professor who cures hydrophobia refuses to take Winks' case.

Blinks—Poor Winks! Then he must really have hydrophobia.—New York Weekly.

Foreign Dolls at the Capital.

Very near some cradle cases in the National museum are hundreds of dolls, and I see that the children of all the world are alike in their love for toys. Some of the finest dolls come from Alaska, and nearly every tribe has its different kind of doll. Many of them are carved from ivory, and they are made to represent the people who make them.

The doll of the flat headed Indian has a flat head, and one from southern Alaska will have a hole through its lower lip with an ivory pin in it to represent the custom of the ladies of Alaska who pierce their lip in this way. The dolls of the Indians are of both sexes, and not a few of them are tattooed.

One of the Alaskan dolls has a ring in his nose on which are strung red, white and blue beads, and other dolls are made of straw or grasses. The prettiest doll in the world, perhaps, is the Japanese doll, and from the doll you can study the customs of the country. The little bunches of hair on the different parts of a Japanese doll's head enable us to tell just how old it is, and you can tell a Japanese child's age by its hair.

Some of the babies have their heads entirely shaved with the exception of two little wisps of hair under the ears. These are very young babies. After they grow a few months old a ring of hair is allowed to remain about the crown and so they keep on adding until the whole of the head is covered. It is the same in Siam.—Washington Letter.

The Deadly Aqua Tufiana.

Secret and deadly poisons for the taking of human life have been manufactured from time to time, and criminal annals show that they have also been put to use. History records that on July 29, 1717, Addison, as secretary of state, addressed a letter to the commissioners of customs in England requiring them to prevent the introduction and sale of a certain poisonous liquid of which the British envoys at Genoa and Naples had sent home accounts. It appears from their letters that this liquid, called "aqua tufiana," from the Greek woman who invented it, was introduced in large quantities into Italy, and also in part distilled there, and that it was extensively used for poison.

It was asserted that 600 persons had been destroyed by it in Naples alone, and that many persons had been punished capitally for selling or administering it. The culprits engaged in making and disposing of the poison made the singular plea that their object was a good one—namely, that they desired to establish peace and good will in the world by removing all obnoxious persons, such as unruly sons, troublesome wives and so on. The authorities could not see the case exactly in that light, and they used every effort to prevent further traffic in the poison, but it seems met with only partial success.—Chicago News.

The Fourth Finger.

It is a generally known fact that the fourth or ring finger of the human hand is not on a par with the other fingers, it being the weakest, the least flexible and the most rebellious in action. Scientific men explain this feebleness by the theory that the lateral tendons joining the ring finger to the others composing the hand in a measure paralyze its movements. To the majority of people it matters little that one of the fingers should be inferior to the rest in strength. As a scientific oddity, however, it is worthy of note. To the pianist or the player of stringed instruments it is a source of considerable inconvenience.

As art can in the present day remedy most defects which incommode us a medical man has thought that something might be done to free the ring finger. He informs those interested in the matter that if they wish to have a strong, flexible fourth finger they have but to submit to a surgical operation, which consists in dividing the tendons of the hand. The operation, which is very simple, scarcely deserving the name, has recently been performed on several New York, Boston and Brooklyn pianists.—St. Louis Republic.

Ancient Manuscripts

The best ancient manuscripts were written on vellum or calfskin. This is supposed to have been made from the skins of antelopes. It seems to have been a providential circumstance that the Bible text was transmitted on such durable material, otherwise our Bible might have been as fragmentary as the papyrus rolls exhumed from Herculaneum. Another notable feature of early Biblical manuscripts was the exactness and beauty of the writing. Every letter seemed to have been formed with religious scrupulousness. The letters are all capitals, and there are no breaks between the words except at the end of sentences. Caligraphy was an art. Men who could not read their own writing could dictate and have their writings rewritten by an elegant copyist, and the manuscript was almost as readable as a printed book to-day, the difference being in the expense of the copying and the duplication of copies.—New York Mail and Express.

A Scientist's Opinion.

Mr. Bilkins (looking up from the paper)—The eminent physician, Dr. Greathead, says there is no exercise so conducive to health in woman as ordinary housework.

Mrs. Bilkins—Huh! I'll bet he's married.—New York Weekly.

SONOMA INDEX-TRIBUNE.

PROBABLY FATAL ACCIDENT.

A Can of Powder Explodes in Wm. Fowler's Hands.

Last night while firing salutes for the Democratic meeting, Wm. Fowler, lately employed in the Sonoma Market, was badly burned about the face and hands by the premature explosion of a can of gun-powder. His injuries may result fatally. The unfortunate man has a wife and three children.

A WASHINGTON dispatch, under date of October 22d, says that the Commissioner of Internal Revenue has given instructions to the officers of his department that will prove of great benefit to the wine-makers. One of the provisions of the existing tariff law is that the makers of sweet wines shall be allowed the use of grape brandies free of tax, for the purpose of fortifying their wines. These wines, however, are not to contain more than 24 per cent of alcohol after fortification. The Commissioner of Internal Revenue is charged with the duty of transferring brandy to the bonded warehouse or distillery where it is made into wine. The proper execution of this law requires a large number of new stamps, and the preparation of new regualations, but in view of the press of other work it is impossible to procure a supply of stamps until after the first of December. By that time the vintage season will have passed, and wine makers will be precluded this year from all the benefits intended by the act. To provide against this, the Commissioner has instructed the Collectors at San Francisco, New York and elsewhere to notify the persons interested that he will consider applications to refund taxes paid on all spirits which may have been used in the fortification of sweet wines, provided the spirit so used and the wines so fortified are such that no tax need have been paid on the spirits. Internal Revenue officers have been supplied with the proper stamps to attach to the different packages. He has further instructed the Collectors that they may use special bonded warehouse stamps, properly altered, in lieu of the regular stamps required by law and which are to be issued hereafter.

THE election of Judge Dougherty is now conceded by almost everybody. The popularity of the Judge is really surprising. Party lines have become completely obliterated in the judicial contest in this county. Judge Dougherty's opponents are lawyers of well known ability, but for all that voters feel obligated to vote for a man for a second term who has made so upright and honest a Judge, particularly when it is important that one of the outgoing Judges should be kept in office to the end that the business now on the Court's calendar should receive proper attention, which would be almost impossible should two new Judges be selected.

H. C. PETRAY, nominee for School Superintendent, is gaining friends every day. He has many supporters in this valley, who admire his manly qualities. It is really surprising, but it is nevertheless a fact, that he is almost as popular with the Republicans of Sonoma Township as he is with the Democrats. He will get a heavy vote down this way. The unwarranted attack made on Mr. Petray's fitness for the position by the El Verano newspaper has made for him at least fifty Republican votes in Sonoma and vicinity.

VOTERS should bear in mind that in scratching a name on a ticket, the words "no vote" should be written next to the name scratched, or the name of another candidate, else the scratch cannot be lawfully recognized by the election board. As scratching will be the order of the day in this county, in so far as the county nominees are concerned, it is important that voters should bear this in mind.

HON. J. R. McDONALD.

The gentleman whose name heads this article is one of the most popular men on the Republican State ticket. As a candidate for State Treasurer he will poll a large vote, and his name on the ticket is worth many votes to the Republican party. Mr. McDonald is a Pioneer of California, and at one time resided at Healdsburg, in this county. At present, and for many years past, he has successfully carried on a large mercantile business at Grayson, Stanislaus county. He is a brother of the Misses McDonald who conducted the Young Ladies, Seminary at Napa City some years ago, an institution where many of Sonoma's young ladies received their collegiate education. Mr. McDonald's wife is one of Sonoma Valley's fairest native daughters, formerly Miss Emma Cooper, whose family has for many years resided in our midst. He will receive a hearty support from his many friends in this county.

THE Republicans of Sonoma county nominated one of their strongest men when they placed Allen Bryant of Santa Rosa on their ticket for County Treasurer. He is well known to the citizens of Sonoma Valley, having resided here from 1880 to 1886. He has been engaged in the grocery and provision business at Santa Rosa for the last five years, and his reputation as a capable and honest business man is of the very highest in that community. If elected, the funds of Sonoma county will be safe in his hands.

Accident to Tudy Estes.

On Tuesday of last week while Tudy Estes, a young man well-known in this valley, was riding horseback on Mission street, San Francisco, the animal slipped and fell. Young Estes was thrown to the ground, the horse falling on one of his feet breaking thirteen of the small bones. His injuries will confine him to his bed for a long time.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

COURT PROCEEDINGS.

DEPARTMENT ONE—PRESSLEY, J.—PROBATE

Estate of John H. Drummond—Continued to Nov. 3.

Estate of Jabez Faught—cases of four petitions; continued one week.

CRIMINAL AND CIVIL.

Farmers' & Mechanics' Bank vs. Carmichael et al.—Leave granted the defendant Marshal until Nov. 8, to file answer and cross-complaint.

Catherine Tuomy vs. B. Tuomy—Motion set for rehearing November 10.

M. Solomon vs. C. Barnhardt—Demurrer submitted.

Good Advice.

Several years ago I was covered with Boils to such an extent that my life was a misery. After trying a number of other remedies without any benefit, I was advised by a wholesale druggist at Columbus to try S. S. S. (Swift's Specific). One bottle of S. S. S. cured me entirely. I have not had a Boil since. To those afflicted with boils or Skin-Eruptions I give the same advice my wholesale druggist gave me—take S. S. S.

DAVID ZARTMAN, Druggist,
Independence, Ohio.
May 10, 1890.

A Prompt Cure.

I was cured sound and well of a case of Blood Poison by S. S. S. As soon as I discovered I was afflicted with the disease I commenced taking Swift's Specific (S. S. S.), and in a few weeks I was permanently cured.

GEORGE STEWART,
Shelby, Ohio.

Happy Hoosiers.

Wm. Timmons, Postmaster of Idaville, Ind., writes "Electric Bitters has done more for me than all other medicines combined, for that bad feeling arising from Liver and Kidney trouble." John Leslie, a farmer and stockman, of the same place, says: "Find Electric Bitters to be the best Kidney and Liver medicine made me feel like a new man." J. W. Gardner, hardware merchant same town, says: "Electric Bitters is just the thing for a man who is all run down and don't care whether he lives or dies; he found new strength, good appetite and felt just like he had a new lease on life. Only 50c. a bottle at Ed. Wegner's Drug Store

BORN.

THOMAS—Near Sonoma, October 19, 1890, to the wife of R. B. Thomas, a son.

NEW TO-DAY.

Dyspepsia

Makes the lives of many people miserable causing distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels. Dyspepsia does not get well of itself. It requires careful attention and a remedy like Hood's Sarsaparilla, which acts gently, yet efficiently. It tones the stomach, regulates the digestion, creates a good appetite, banishes headache, and refreshes the mind.

Distress After Eating **Sick Headache** **Heart-burn** **Sour Stomach**

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. After eating I would have a faint or tired, all-gone feeling, as though I had not eaten anything. My trouble was aggravated by business, painting. Last spring I took Hood's Sarsaparilla, which did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced." GEORGE A. PAGE, Watertown, Mass.

Hood's Sarsaparilla

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation permanently. For sale in 50c and $1 bottles by all druggists.

CALIFORNIA FIG SYRUP CO.
SAN FRANCISCO, CAL.
LOUISVILLE, KY. NEW YORK, N.Y.

Remarkable Rescue.

Mrs. Michael Curtain, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her that she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking ten bottles, found herself sound and well, and now does her own housework and is as well as she ever was.—Free trial bottles of this Great Discovery at Ed. Wegner's Drug Store, large bottles 50c. &.

SONOMA, OCT. 25, 1890.

CITY OFFICIAL PAPER.

LOCAL BREVITIES.

The Union Hotel is now open. *

The Union Hotel is the first-class house of Sonoma. *

Go to the Union Hotel, R. D. Moore, proprietor. *

Schocken always has on hand fresh groceries.

Go to H. Weyl's for Star flour. The best in the market. *

Go to the Union Hotel for first-class accommodations. *

If you want first-class accommodations go to the Union Hotel. +

Star flour at Weyl's is only $1.25 per sack; per barrel, $4.75. Guaranteed. *

You can be accommodated at the Union Hotel according to your means. *

A "Balm in Gilead" for you by taking Simmons Liver Regulator for your deseased liver.

Dr. F. J. Lane will be in his office at Union Hall on Sunday and Monday of each week until further orders.

A large number of our townspeople took in the Mechanics' Fair in San Francisco last Saturday.

The Board of Supervisors have levied a special school tax of 30 cents in the South Los Guilicos district.

Mrs. M. A. Flynn of this place will make application before the Superior Court of this county on the 10th of next month to become a sole trader.

The ladies of the M. E. church will give a social and oyster supper at Union Hall on the evening of October 31st. All are cordially invited.

The Great Register of Sonoma county has been printed. It contains 8,344 names. The register of the year before was but 7,693, a gain this year in voters of 651.

The ladies of the Congregational church will hold a social at the home of Mr. and Mrs. G. W. Clark on Broadway, Tuesday evening Oct. 28. All are cordially invited to attend.

Don't forget that the Ladies Fair at Union Hall will close next Monday evening with a grand social and ice cream party. Several handsome and costly prizes will be disposed of at a very low price.

Ed. Wegner, one of Sonoma's most enterprising business men, has enlarged and greatly improved his drug and general merchandise store at considerable expense. The store is now one of the finest in town.

Aug. Stangenberger, the well-known piano tuner, is now at the Union Hotel and will remain in Sonoma the coming week. Pianos tuned at a reasonable price. All orders promptly attended to.

G. S. Harris' new livery stable on the corner of Napa and First-street West is a credit to the town and one of the most convenient livery stables in the county. Mr. Harris moved into his new quarters last Monday.

If you want to lease a fine improved farm of nine acres, call on Henry Lutgens. The place, which is located inside of the city limits, will be leased to a responsible party at a reasonable figure. See adv. in another column.

Important! Important! — You can buy all kinds of furniture, beds and bedding, stoves, crockery, glassware and staple groceries, also nice buggy harness, saddles, bridles, halters, Etc. Cheap for cash at Badgers, Agua Caliente.

Jas. R. Crosby, the South Los Guilicos carpenter, who fell from a scaffolding and received internal injuries on Wednesday of last week, died from his injuries the following Friday. He was buried in Santa Rosa last Monday.

John O'Hara, Democratic nominee for the Assembly from this district, dropped into our sanctum yesterday. Mr. O'Hara was at one time a Supervisor from Sonoma and Vallejo Townships, and as such made an honest and conscientious official.

F. Ehrlich, an old resident of this valley, has bought the fixtures of the Sonoma Market and has opened up at the old stand. He will conduct the same in first-class style. He hopes by keeping the best of meats, farm and dairy products to receive a share of the patronage of the people of town and valley. He will conduct his business on a cash basis.

One of the attractions at the Ladies' Fair this evening at Union Hall will be the instrumental quintette composed of Prof. M. Y. Ferrer and the accomplished Misses Camelita, Adele, Emily, Eugenie and R. Ferrer, who will perform on the mandoler, guitar, violin and banjo. The Ferrer family are all accomplished musicians and were one of the attractions of Washington society last winter.

By reference to adv. in another column it will be seen that we have in our possession a black and tan terrier, for which an owner is wanted. The dog is evidently editorially inclined for he ensconces himself in our waste basket during our presence in the *sanctum sanctorum*. He is an intelligent animal and no doubt is highly prized by the owner. The party claiming the dog must present indisputable evidence of ownership, else we will refuse to deliver him up.

Dairy Interests.

The dairy interests of Sonoma and vicinity are growing in importance every year and it is only a question of time when this industry will take front rank among the products of Sonoma Valley. It is an acknowledged fact that the butter and cheeses turned out by our Swiss dairymen commands higher prices and meets with more ready sale than those of any other section of the State. The feed on the Sonoma marshes, where our leading dairies are located, is peculiarly adapted to cheese and butter making, imparting a flavor to those products that is at once pleasing to the taste of connoisseurs. The cheeses of Sonoma dairies find a ready sale at highest market prices in San Francisco, from whence they are exported in large numbers to Asiatic and South American ports. The dairies which have made the largest cheese and butter shipments this season are those of Chas. Filippini, M. Marti, Anton Kiser, S. A Ringstrom, Harry Fisheer, Peter Kiser, Millar Bros., Ignatz Kiser, H. Rubke and Fred Neuenschwander. The latter alone has shipped since the 1st of last November 63,000 pounds of Limburg and Swiss cheese to San Francisco, and he is by no means the heaviest shipper among our Sonoma dairymen.

Republican Meeting.

Hon. Frank McGowan, State Senator from Humboldt county, addressed the people of this place on the political issues of the day at Weyl's Hall Wednesday night. The meeting, which was one of the most enthusiastic Republican gatherings of the campaign, was called to order by D. D. Davisson, who after a few brief remarks read off the names of the following Vice Presidents, who took their place on the platform, Messrs. Sam Agnew, Col. Wilgus, R. A. Poppe, Wm. B. Read and M. F. Turley. The hall, which was beautifully decorated with American flags, was crowded with people from all parts of the valley. Mr. McGowan upon being introduced to the audiance by Chairman Davisson was given a hearty reception. His two-hour speech was one of the most able and forcible ever delivered from a Republican platform in this city. After Mr. McGowan had concluded three rousing cheers were given for Markham and Reddick, and the meeting stood adjourned.

Taxation on Vines and Trees.

At the last session of the Legislature the Hon. Robt. Howe, Speaker of the Assembly and the member from this district, originated and had passed a bill exempting trees and vines from taxation. The bill was drawn up solely in the interest of the farmer and for the purpose of relieving him from an over burden of taxation. Last year the farmer received a partial benefit of the law, and in the future he will receive the full benefit of the same, as trees and vines will be entirely exempt from taxation. This law will encourage the farmer to improve his vineyard and plant new orchards. The exemption of trees and vines from taxation was the only measure passed by the last Legislature which was of real and direct benefit to the farmer. This is one of the reasons why Mr. Howe is being so cordially supported for State Senator by the farmers of Sonoma county.

Chimney Blaze.

An alarm of fire, sounded last Monday evening about seven o'clock, brought out the firemen in a hurry, and within three minutes after the first tap of the fire-bell the hose cart, hook and ladder truck and fire engine were speeding down Broadway, in response of the cry of "Fire" from that direction. Upon arriving in front of the residence of Gustav Wehr, it was discovered that the cause of the alarm was a chimney blaze and that the services of the firemen were not needed. No damage.

Second Crop Peaches.

O. B. Shaw, whose orchard is located in the southeastern suburbs of town, has a cling-stone peach tree that has produced two crops this season. This is the first peach tree that we have ever heard of producing a second crop. Samples of the latter were shown us by Mr. Shaw one day this week. They are quite small but are sweet and of an excellent flavor.

The Catholic Fair.

The Ladies' Fair at Union Hall opened very auspiciously last Wednesday, the large hall being crowded. The various booths have been doing a rushing business and the the Fair promises to be one of the most successful, financially, ever held in Sonoma. To-night and Monday evenings fine musical programmes will be rendered and many prizes distributed to the holders of winning numbers.

Billy Longmore.

Among our political cards will be found this week that of Wm. Longmore, Democratic nominee for Assessor. The gentleman has made an excellent officer and as he has many friends down this way will poll a heavy vote in Sonoma Township.

GRAND JURY REPORT.

Nine Indictments Found--Condition of the Various County Offices.

At 3:30 o'clock, Friday afternoon, the Grand Jury submitted its final report as follows, to Judge Pressley, in Department 1 of the Superior Court:

To the Honorable Superior Court of Sonoma County: We, the Grand Jury, beg leave to submit our fiscal report as follows:

We convened September 23, 1890, and after being duly organized, proceeded to the consideration of the matters brought before us. We adjourned on Saturday, September 27, until October 15. On October 15 the Grand Jury met and continued its session until October 17.

We found nine indictments on criminal charges and ignored five. We have employed an expert to examine the records of the various county offices, whose report accompanies this. We recommend that the present expert's report be preserved for future reference. We adopted our expert's report as a part of this and refer to it for full particulars.

RECORDER'S OFFICE.

We visited and examined the Recorder's office and found it in good order. According to the expert's record he finds errors amounting to $2 90 which has been paid to the county.

We append our expert's report.

ASSESSOR'S OFFICE.

We have carefully examined the Assessor's books and find them kept in a careful and systematic manner.

COUNTY CLERK'S OFFICE.

We visited the County Clerk's office and found it in good order. Expert found clerical errors in this office amounting to $20.45 in favor of the county, which has been paid to the county.

We herewith submit our expert's report.

SHERIFF'S OFFICE.

We visited the Sheriff's office and found it in good order. Expert found errors of ten cents in favor of the county and the amount has been paid to the county.

We refer to our expert's report.

BOARD OF SUPERVISORS.

We have examined this office. Expert reports the accounts of the various road overseers correct. We also submit our expert's report appended to this part of our report.

COUNTY SUPERINTENDENT OFFICE.

We have visited the County Superintendent office and found everything in a very satisfactory condition.

COUNTY JAIL.

We visited the county jail and found the premises well cared for.

A GENERAL CHAIN GANG.

We recommend the Board of Supervisors to establish a chain-gang to work on public roads and highways of all able-bodied prisoners confined in the county jail for petty offenses, or where they can utilize their labor to the best advantage.

COUNTY FARM AND HOSPITAL.

We have visited the county hospital building and found it well kept and in good condition. The building itself is a credit to our county. The inmates seem perfectly contented and well cared for. The County Physician is entitled to credit for the efficient manner in which he is conducting it. We recommend that the laundry be removed from under the sick wards.

THE TREASURER'S OFFICE.

We have examined this office; find it well kept and in good order; there are no errors. We also submit our expert's report.

COURT-HOUSE AND GROUNDS.

We find the court-house grounds in good condition, and they reflect credit on the county authorities. Mr. Dunn is entitled to credit for his artistic display as a landscape gardener.

COUNTY FARM.

We find the county farm in bad order. We recommend that the county farm have a general renovating and new bedding. We recommend that the four feeble minded woman be removed to some more suitable place where they can be cared for. Also that the three little children be removed to some orphan asylum, or at least away from the surrounding influences.

A NUISANCE.

Having thoroughly examined the county jail we are inclined to condemn it as a nusiance in the court-house.

WHOLLY INADEQUATE.

We have examined the hall of records and find it entirely inadequate to the requirements of the present time.

Therefore we most heartily approve of the action of the Board of Supervisors in securing suitable lots and letting contracts for the construction of buildings adapted to the period.

In conclusion we wish to return our sincere thanks for the courteous manner in which the various county officials have assisted us in our labors.

M. DOYLE, Foreman.
J. H. EINHORN, Secretary

THE DEMOCRATIC NOMINEES.

They Visit Sonoma and are Accorded an Enthusiastic Reception.

Last night the nominees on the Democratic county ticket made their bow to the people of Sonoma. All must admit that the reception accorded them was all that could be desired. Bon-fires blazed, there was a booming of anvils, a pyrotechnic display and an enthusiastic meeting in Weyl's Hall, which had been handsomely decorated by Miss Dora Howe and Miss Alice McRoberts.

The meeting was called to order by G. W. Hooper, who introduced to the audience Thos. Rutledge, candidate for Superior Judge.

At the conclusion of Mr. Rutledge's remarks, J. W. Oates, also nominee for Superior Judge, was introduced to the assemblage. Mr. Oates, who is a lawyer of no mean ability, was greeted with a storm of applause, which showed very plainly that he was very popular down this way. His speech was well received and heartily applauded.

Then followed in their order J. F. Mulgrew, nominee for Sheriff, Wm. Longmore, candidate for Assessor, L. W. Juillard, nominee for County Clerk, P. N. Stofen, candidate for Treasurer, Dr. B. S. Young, nominee for Coroner, John O'Hara, candidate for the Assembly and G. P. Hall. These in turn were well received, while Capt. Stofen was enthusiastically applauded by his old friends and neighbors.

But when H. C. Petray, nominee for School Superintendent, made his bow to the audience the once humble plow-boy who had worked himself up to the position of one of the principal educators of Sonoma county, was accorded a perfect ovation, Republicans and Democrats alike joining in the applause.

Hon. Robt. Howe, candidate for State Senator, reviewed his course in the last Assembly, and pointed to the records to prove that he had been true to the people. Mr. Howe, at the conclusion of his remarks was applauded to the echo.

J. T. Butts, candidate for District Attorney, was the last speaker. He made a strong appeal to the voters for their suffrages and delivered a good speech.

When Mr. Butts had concluded three cheers and a tiger were given for the Democratic party and the nominees "who didn't know it was loaded" adjourned to the Ladies' Fair and were relieved of their spare cash.

SHELLVILLE SHORT SHOTS.

Miss Sadie Wise visited Miss F. Vollmar last week.

The San Luis school is taking a vacation this week.

Miss Atterbury is spending her vacation in Guernevilla.

Mrs. J. J. Stofen of San Francisco is visiting Mrs. P. L. McGill.

Mr. and Mrs. P. H. Vollmar spent a few days in the Bay City last week.

Frank Humphreys is spending his vacation at his home in Cordelia.

Capt. J. J. Stofen has bought out Treasurer Stofen's interest in their ranch at this place.

Mrs. McMackin, Mrs. Merriam and her daughter have gone to San Francisco on a visit.

Mayor Pond of San Francisco, Democratic nominee for Governor, passed through town Wednesday.

Heavy shipments of fruit over the Southern Pacific road still continues notwithstanding the lateness of the season.

Mrs. E. Cassebohm and Mrs. Goodman have been in San Francisco the past week visiting the Grand Chapter of the Eastern Star.

A GREEN COUNTRY GIRL.
Shellville, October 14, 1890.

A Change Wanted.

Now that winter is near at hand the people of Sonoma Valley, are in favor of a change in the time table of the San Francisco and North Pacific Railway Company. It is claimed, and justly too, that the time for leaving San Francisco should be changed from 5 o'clock P. M. to 3:30 P. M. This change would give the patrons of the road in this valley six hours and a half in the city and would enable them to reach Sonoma at an early hour in the evening, thus ensuring the country people against accidents in passing over the county roads on dark and stormy nights. Such a change would be a great accommodation to the people of this valley.

Mrs. Wessel Heard From.

Mrs. S. Wessel, who left Sonoma for her old home in Ireland several months ago, has been heard from. She is now in Boston. The old lady upon arriving in the old country, discovered, after an absence of half a century, that her relatives and acquaintances of girlhood days were dead and that she was a stranger in a strange land. She thereupon took passage for Boston, Mass., where she resided previous to coming to Sonoma some thirty years ago. It was there she met some kind friends with whom she is at present making her home. It is thought that she will return to Sonoma in the near future.

The Texas cow boy takes Simmons Liver Regulator when bilious.--J. E. Pierce, Ranchero Grande, Texas.

For constipation, biliousness and kidney affections, remember Simmons Liver Regulator.

-PERSONAL AND SOCIAL.-

Mrs. Keogh is visiting in Sonoma.

J. J. Wystyrk of Santa Rosa was in town Sunday.

Robt. P. Hill of Glen Ellen was in town Thursday.

Miss Mattie Peters visited friends in Sonoma last Sunday.

Miss Mary Kent is the guest of her cousin, Mrs. Granice.

G. H. Hotz visited San Francisco last Saturday on business.

Lee Luttrell of South Los Guilicos was in town Wednesday on legal business.

Miss May Donahue of San Francisco is visiting her parents at Embarcadero.

Luther W. Burris and family of Santa Rosa were guests at the Burris farm last Sunday.

Mr. and Mrs. Cowan of Bannett Valley were the guests of Mrs. J. B. Small last Sunday.

A. E. Nathanson of San Francisco was a visitor in Sonoma several days this week.

Deputy Sheriff Breitenbach was circulating among his old Sonoma friends last Monday.

Mr. and Mrs. Cohn of San Francisco were the guests of Mrs. Chas. Engelbert last Sunday.

Miss Lizzie Hein returned from the city last Tuesday evening after a visit of several days with friends.

Miss Fannie Thompson of Glen Ellen and Miss Nellie Burney of Santa Rosa visited the Misses Kenney last Wednesday.

Eddie Estes, who has been ill with diphtheria the past two weeks at the home of his parents in San Francisco, is now out of danger.

Miss Hayden of Tiburon, daughter of James Hayden, the well-known caterer on the steamer James M. Donahue, is visiting the family of Mr. and Mrs. P. Malone.

Shubrick Norris of this place, one of the old war horses of Democracy, has made a heavy wager with one of Santa Rosa's Republicans that Pond will be the next Governor.

Jas. Albertson, G. W. Sparks, J. B. Small, S. Norris, Hon. Robt. Howe, Wm. Brown and M. Muldry took in the Pond and White meeting at Santa Rosa last Tuesday evening.

-GLEN ELLEN GOSSIP-

Geo. Sparks was in town Wednesday.

J. Martens went to Sonoma Wednesday.

J. Wilson and wife visited Santa Rosa one day last week.

C. Weise and C. Crofoot visited the county seat Wednesday.

T. Small is visiting relatives at this place.

C. J. Poppe spent several days last week at Santa Rosa.

Chas. Hill went to Santa Rosa last Friday.

Mrs. has F. G. Thierkoff returned from San Francisoo.

J. Staley was in town last Sunday.

Ben. Thierkoff has gone to Merced to visit his brother who is ill at that place.

A. Koebele will resume work at this place next spring.

Miss Louisa Crosby, who was thrown from a horse one day last week and fractured an arm, is getting along nicely.

EBERFELD.
Glen Ellen, Oct. 21, 1890.

Shaken Out of Gear,

By malarial disease, the human machinery cannot half perform its office. Digestion, secretion, evacuation and disordered, the blood becomes watery, the nerves feeble, the countenance ghastly, sleep disturbed and appetite capricious. Terrible is this disease, fell its consequences. There, is however, a known antidote to the miasmatic poison, and a certain safeguard against it. In malarious regions of South and West, in South America, Guatemala and on the Isthmus of Panama, as well as in trans-marine countries where the scourge exists, this, inimitable preventive and remedy, Hostetter's Stomach Bitters, has, during the past thirty-five years, been constantly widening the area of its usefulness, and demonstrating its sovereign value. Liver complaint, dyspepsia, constipation, kidney trouble, rheumatism and debility are all remedied by it.

NEW TO-DAY.

ROYAL

BAKING POWDER

Absolutely Pure.

A cream of tartar baking powder. Highest of all in leavening strength. —*U. S. Government Report, Aug. 17, 1889.*

SONOMA INDEX - TRIBUNE.

SATURDAY, OCTOBER 25, 1890.

Not to Be Blown Out.

The world progresses so fast that it is hard for some people to keep up with it, and even a young collegian is once in a while left behind. An inter-collegiate oratorical contest had been held in Kansas City, and one of the competitors remained overnight at a hotel.

He retired at 10 o'clock—a fact which certainly speaks well for him—and about midnight the hallman noticed a peculiar odor, as of burning cloth. He notified the night clerk and a police officer, and the three men at once began an investigation. They were not very long in locating the seat of the trouble in the young collegian's room, and a few minutes' hammering brought him to the door with a request to know what they wanted.

As soon as the night clerk entered the room he saw the cause of the alarming odor. The guest had wrapped a thin towel around the incandescent electric light globe—the glow light is a better term—and it had become scorched.

"What on earth do you mean by this?" demanded the clerk.

"The light hurt my eyes and I wanted to shade it," explained the young fellow.

"Why didn't you put it out, then?"

"Well," answered the collegian, apologetically, "I blew and blew on the thing till I thought I'd go to pieces, and then I gave it up."—Kansas City Times.

Food for Reflection.

What do they do with all the waiters when they get near sighted or far sighted or hind sighted?

Who ever saw a near sighted waiter? There are lots of bald headed waiters, and bow legged waiters, and pigeon toed waiters, but a waiter wearing spectacles would seem to be a very curious sight—I may say spectacle—indeed.

Is there anything about the profession of waiting which keeps a man's sight good? I ask this of our men of science, and I pause for a reply. Does the practice of constantly and keenly looking for tips sharpen the gifts of vision in these autocrats of the table? These are matters calling for consideration, for the waiters are very much in our midst, and we cannot pass them by in cold neglect without suffering the consequences of our folly.

I have seen near sighted street car drivers and a great many extremely short sighted policemen, especially on Sunday, but never a near sighted waiter. I think the mystery of the waiters should be cleared up. Where do all the near sighted waiters go?—New York Herald.

Tooth Powders and the Teeth.

Tooth powders as a rule should be soluble and slightly antacid. There is a class of insoluble powders which are of the most dangerous nature, of which powdered charcoal is a notable example. These consist of fine, sharp particles, which being pressed by the brush between the teeth and gums, or lodging between the teeth, may cause the most serious results, even to the destruction of the gums or the cement. The use of the brush in connection with powders, washes or other treatment of the teeth should be gentle.

Bleeding of the gums is always a danger signal. It shows that the skin has been broken, inviting the absorption into the system of any poisonous or foreign matters which may be present in the mouth. If the gums are very tender a soft brush should be used, and used very gently till they have hardened sufficiently to withstand more vigorous treatment. Even then the liability will be to err on the side of harshness.—Good Housekeeping.

The Gordian Knot.

Gordius, a peasant, being chosen king of Phrygia, dedicated his wagon to Jupiter, and fastened the yoke to a beam with a rope of bark so ingeniously that no one could untie it. Alexander was told that "whoever undid the knot would reign over the whole east." "Well, then," said the conqueror, "it is thus I perform the task," and so saying he cut the knot in twain with his sword.—Dry Goods Chronicle.

Keeping the Secret.

"I don't love you?"

"No, you don't."

"Great guns! don't I wear the shirts you make for me right along? And can I give you a stronger proof than that?"

She only sobbed.

"I think too much of you, in fact, to tell anybody even that it was you who made them."—Philadelphia Times.

Luck.

Some look upon successes and failures as lucky incidents or calamitous mischances, and wonder what the next turn of fortune's wheel is to bring them. Others profit by both, and, by studying their cause and the laws which govern them, become wiser and more able to insure a permanent and steady success in the future.

Darwinism Indorsed.

The Count of Cristo Monti (who has made himself tiresome)—Aw, and ze charming Mees Duquesne would haf me to believe zat our remote ancestors —zat zey were monkees?

Miss Duquesne—Yes, and some of them could not have been very remote, either, I should judge.—Pittsburg Dispatch.

Lightly Spoken.

Mr. Richfello—How pretty Miss Beauti looks to-night.

Rival Belle—Yes. How miserably poor the electric lights have become lately. They are dimmer than gas.—New York Weekly.

For Dry Goods, Clothing, Groceries, Hardware, Cutlery, and also everything kept in a general merchandising store go to S. Schocken's north side Plaza, Sonoma

MISCELLANEOUS.

"There was a frog who lived in a spring,
He caught such a cold he could not sing."

Poor, unfortunate Batrachian! In what a sad plight he must have been. And yet his misfortune was one that often befalls singers. Many a once tuneful voice among those who belong to the "genus homo" is utterly spoiled by "cold in the head," or on the lungs, or both combined. For the above mentioned "croaker" we are not aware that any remedy was ever devised; but we rejoice to know that all human singers may keep their heads clear and throats in tune by the timely use of Dr. Sage's Catarrh Remedy and Dr. Pierce's Golden Medical Discovery, both of which are sold by druggists.

Dr. Sage's Catarrh Remedy cures the worst cases of Catarrh in the Head, no matter of how long standing, while for all laryngeal, bronchial, throat and lung affections, Dr. Pierce's Golden Medical Discovery is positively unequaled. It cures the worst lingering coughs and builds up the flesh and strength of those who have been reduced by wasting diseases. It is guaranteed to benefit or cure in all diseases for which it is recommended, if taken in time and given a fair trial, or money paid for it refunded.

Copyright, 1888, by WORLD'S DIS. MED. ASS'N.

Dr. PIERCE'S PELLETS

regulate and cleanse the liver, stomach and bowels. They are purely vegetable and perfectly harmless. Serve a Dose. Sold by druggists. 25 cents a Vial.

The Pulpit and the Stage.

Rev. F. M. Shrout, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 28 pounds in weight."

Arthur Love, manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident that Dr. King's New Discovery for Consumption, beats 'em all and cures when everything else fails. The greatest kindness I can do to my many thousand friends is to urge them to try it." Free trial bottles at E. Weguer's Drug Store. Regular size 50 cents and $1.

MISCELLANEOUS.

"Seeing is Believing."

And the best lamp ever made, like Aladdin's of old, a "wonderful lamp!" A lamp absolutely non-explosive and unbreakable, which gives a clear, soft, brilliant white light of 85 candle power! Purer and brighter than gas light, softer than electric light, more cheerful than either! That lamp is

"The Rochester."

And with it there is no smoke, no smell, no broken chimneys, no flickering, no sweating, no climbing up of the flame, no "tantrums" nor annoyance of any kind, and it never needs trimming. Its founts (oil reservoirs) being tough rolled seamless brass, with central draft, it is absolutely unbreakable, and as safe as a tallow candle.

Only five years old, and over two million of these lamps in use. It must be a GOOD lamp to make such a telling success. Indeed it is, for lamps may come and lamps may go, but the "Rochester" shines on forever! We make over 2,000 artistic varieties,—Hanging and Table Lamps, Banquet, Study, Vase and Piano Lamps,—every kind, in Bronze, Porcelain, Brass, Nickel and Black Wrought Iron.

Ask the lamp dealer for it. Look for the trade-mark stamp: "THE ROCHESTER." If he hasn't the genuine Rochester and the style you want, or if no lamp-store is near, send to us for free illustrated catalogue (and reduced price-list), and we will box and send you any lamp safely by express, right to your door.

ROCHESTER LAMP CO.,
42 Park Place, New York.

to one person at each post office who will show to others who we may send to see it. Many people will buy if they can see for themselves; therefore we

GIVE A BARGAIN

to get samples of our work in a neighborhood.

WILL YOU HAVE ONE OR ALL?

DON'T MISS THIS BARGAIN.

YOU MAY NEVER HAVE ANOTHER.

We guarantee our work to be first class in every particular. Send 6 cts. in stamps for catalogues to select from, and get testimonials from those who have had our bargains.

UNION MACHINE CO.

Broad and Wood Sts., Philadelphia, Pa.

COUGHS, COLDS, SORE THROAT, HOARSENESS, WHOOPING COUGH, INFLUENZA, CROUP, BRONCHITIS, ASTHMA and every affection of the Throat, Lungs and Chest, including CONSUMPTION, are speedily and permanently cured by the use of WISTAR'S BALSAM OF WILD CHERRY, which does not dry up a cough and leave the cause behind, but loosens it, cleanses the lungs, allays irritation, thus removing the cause of complaint. Time tested and proven genuine by millions of grateful sufferers. Be sure you get the genuine. Sold by dealers generally.

SETH W. FOWLE & SONS, Props., BOSTON, MASS.

WHAT IS GOING ON FOR MANY MILES AROUND? ALL ABOUT YOU? TO-DAY? EYE, AT A MORE

One of the BEST Telescopes in the world. Our facilities are unequaled, and to introduce our superior goods we will send FREE to ONE PERSON in each locality, as above. Only those who write us at once can make sure of the chance. All you have to do in return is to show our goods to those who call—your neighbors and those around you. The beginning of this advertisement shows the small end of the telescope. The following cut gives the appearance of it reduced to

about the fiftieth part of its bulk. It is a grand, double size telescope, as large as is easy to carry. We will also show you how you can make from $5 to $10 a day at least, from the start, without experience. Better write at once. We pay all express charges. Address, H. HALLETT & CO., Box 880, PORTLAND, MAINE.

TEAMSTERS.

You work in all weather. You want an "all-weather" coat. In fact, the best waterproof coat in the world. No frail rubber affair that will rip before the week is out. Rubber coats more, and lasts but a short time. Four teamsters out of five wear the "Fish Brand" waterproof clothing. They are the only teamsters' waterproof coats that are light, strong, durable, and cheap. They cost very little, and last a long time. They never get sticky or peel off. The buttons are wire-fastened, and never come off. They are absolutely water-proof and wind-proof. Until you own one you will never know the comfort of a rainy day. Beware of worthless imitations, every garment stamped with the "Fish Brand" Trade Mark. Don't accept any inferior coat when you can have the "Fish Brand Slicker" delivered without extra cost. Particulars and illustrated catalogue free.

A. J. TOWER, - Boston, Mass.
